

# Incremental Visualization of Growing Music Collections

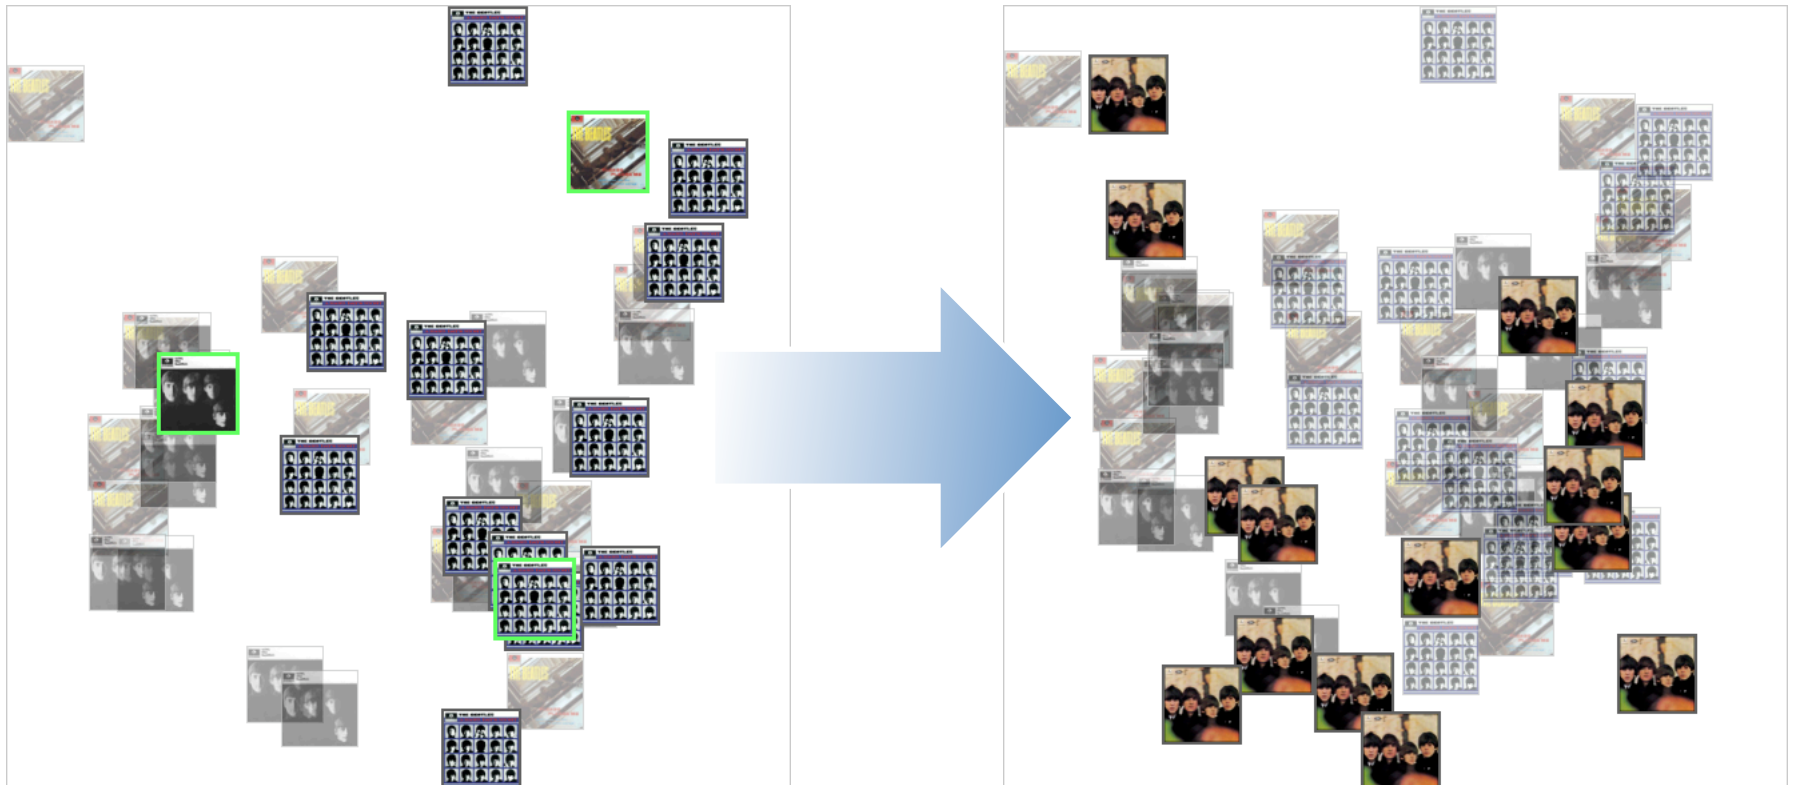

Sebastian Stober, Thomas Low, Tatiana Gossen & Andreas Nürnberg

Data & Knowledge Engineering Group – Faculty of Computer Science – Otto-von-Guericke-University Magdeburg, Germany

**Music collections are not static.**

**So (map) visualizations should be able to cope with change!**

Play our Beatles memory game and decide, which algorithm works best for you:

Memorize these 3 random songs ...

... and find them in this new map!
